DISTRICT

District offers a dusky colour palette of Stone White, Ash, Tarnished Silver, and Anthracite, with an industrial, concrete effect. The Grip finish, available in all four colours, provides a PTV 36+ slip resistance rating, perfect for commercial installations. Four mosaic options and two co-ordinated skirtings are also available to pair with the large format field tiles.

Note: Due to the manufacturing process of all floor tiles there may be small variations in slip resistance. Given this, please refer to our website for the most up-to-date information. The slip resistance properties of a surface can only be maintained with the implementation of an effective regular cleaning and maintenance regime. The frequency of cleaning should be determined by the property manager based on the potential level of surface contaminants. The need for an additional regular cleaning and maintenance regime is further heightened when tiles are used for external floor and wet barefoot applications. CSV: Colour Shade Variation.
