

Shell Northampton

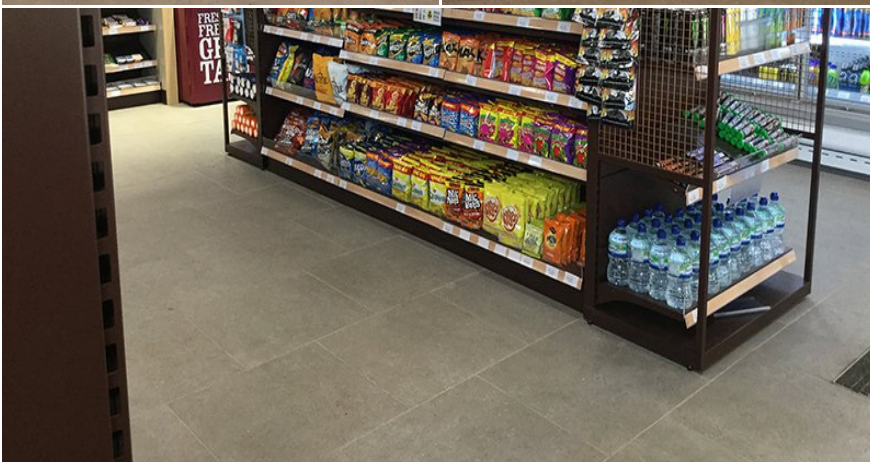

Shell, via Conran Design were looking for a large format porcelain floor tile in a neutral colour, with subtle movement that also had excellent slip resistant characteristics due to the high levels of contaminant often experienced in these locations. Minerals Flint Grip fitted the bill perfectly for use in the new Gen 5 Brand that is being introduced to the UK and beyond, offering the essential slip resistant characteristics without the need for a highly profiled tile.

Products

Floor tiles used on this project...

Minerals
MIN04G Flint
600x600mm & 600x300mm
